CORLISS HOUSE

AS EARLY AS 1860 THE H. B. SMITH CO. OF WESTFIELD, MASS. BEGAN THE MANUFACTURE AND ERECTION OF GOLD'S PATENT CAST IRON SECTIONAL STEAM BOILER, FOR HEATING PURPOSES. THEIR BUSINESS SOON GREW TO SUCH AN EXTENT THAT IN 1870 A LOCAL BRANCH WAS ESTABLISHED UNDER THE DIRECTION OF MR. H. J. WATSON. IN 1875 MR. JAMES M. SMITH, SON OF HENRY B. SMITH, ONE OF THE FOUNDERS OF THE BUSINESS, SUPERSEDED MR. WATSON IN THE MANAGEMENT OF THE PROVIDENCE BRANCH. HE WAS LATER JOINED BY E. W. GIBBS ALSO FROM WESTFIELD IN THE YEAR 1890. UNDER THEIR LEADERSHIP THE BUSINESS GREW AND PROSPERED UNTIL IN 1914 A CORPORATION KNOWN AS THE SMITH-GIBBS CO. WAS FORMED BUYING ALL RIGHTS AND STOCK OF THE LOCAL AND CONTINUED THE BUSINESS ALONG THE SAME LINES. MR. SMITH DIED IN 1925 BEING PRACTICALLY AT THE HEAD OF THE BUSINESS FOR FIFTY YEARS. FOR THE PAST TWENTY FIVE YEARS THE OFFICE AT #11 SOUTH MAIN STREET AND WAREHOUSE AND SHOP #78 AND #9 LEONARD STREET AT THE FOOT OF COLLEGE STREET WAS WELL KNOWN TO THEIR FRIENDS.

ON ACCOUNT OF THE CONSTRUCTION OF THE NEW COURT HOUSE NECESSITATED A REMOVAL, AND IT SEEMS FITTING THAT A PIONEER OF THE HEATING INDUSTRY SHOULD HAVE ACQUIRED FOR A NEW HOME, PROPERTY THAT ALSO HAS A HISTORY WHEN SOUTH MAIN STREET WAS A RESIDENTIAL DISTRICT. THROUGH THE KINDNESS OF FRIENDS WE HAVE BEEN ABLE TO CHECK UP THE HISTORY OF OUR BUILDING AND THIS LOCATION #201 SOUTH MAIN STREET, CORNER OF PLANET ON THE N.E. CORNER OF SOUTH MAIN STREET, OPPOSITE TO OUR BUILDING FASTENED ON TO THE WALLS OF THE BUILDING IS A STONE SLAB WITH THIS INSCRIPTION. "SONS OF LIBERTY" UPON THIS CORNER STOOD THE SABINE TAVERN IN WHICH ON THE EVENING OF JUNE 8, 1772, THE PARTY MET AND ORGANIZED TO DESTROY H.B.M. SCHOONER GASPEE, IN THE DESTRUCTION OF WHICH WAS SHED THE FIRST BLOOD OF THE AMERICAN REVOLUTION. RECORDS SHOW THAT PREVIOUS TO 1717 THE LAND UPON WHICH OUR BUILDING IS LOCATED WAS OWNED BY WILLIAM HOPKINS WHO SOLD AT THAT TIME TO NICHOLAS POWER. IN 1746 HIS WIDOW SOLD TO DINAH COMSTOCK AND J. ARNOLD. FROM THE RECORDS THE UPPER PART OF OUR BUILDING AS SHOWN BY SKETCH WAS BUILT ABOUT 1750. SOON AFTER THIS GEORGE CORLISS BOUGHT HALF OF THE HOUSE STANDING ON THE LOT, THE OTHER HALF BEING OWNED BY DAVID WILKINSON, WHO SELLS HIS HALF TO GEORGE CORLISS WHO THEN OWNS THE ENTIRE PROPERTY.

IN 1789 GEORGE CORLISS BECAME TO SON JOHN THE DWELLING HOUSE AND WHARF, WHERE I NOW LIVE. THE PROPERTY IS DESCRIBED THUS IN 1770 AND 1783 A LARGE HOUSE TWO STORES AND WHARF. IT IS EVIDENT THAT THE STORES WERE LOCATED ON PLANET STREET. IN 1854 THE PROPERTY WAS OWNED BY ELIZA BOWEN (WIDOW) WHO SOLD THE SAME IN 1855 TO SAMUEL B. BULLOCK WHO RAISED THE HOUSE AND USED THE BASEMENT FOR A STABLE AND THE FIRST FLOOR FOR STORAGE OF CARRIAGES AND A STORE. LATER OWNERS, THE PROVIDENCE INSTITUTION FOR SAVINGS, MARY E. HICKEY, CAROLINE DEAN, AND THE RUMFORD CHEMICAL COMPANY. WE PURCHASED THE PROPERTY IN 1929. THE OVERHANG OF THE EAVES STAMPS THIS BUILDING AS OFTEN BUILT IN CONNECTICUT DURING THE MIDDLE OF THE 18TH CENTURY.

WE MAKE NO USE OF THE MANSION PROPERTY EXCEPT FOR A SMALL AMOUNT OF STORAGE SPACE. OUR OFFICES PIPE SHOP ARE LOCATED ON THE FIRST FLOOR AND BASEMENT. IT IS INTERESTING TO NOTE THAT THIS BUILDING ANTEDATES THE BEGINNING OF THE REVOLUTIONARY WAR, THE FIRST BAPTIST MEETING HOUSE AND THE OLD MARKET BUILDING.

2. Date of erection: According to the deeds, the house was apparently built between 1746 and 1750 by two separate parties; the north half by Minah Kilton and the south half by David Wilkinson. George Corlis who acquired the north half in 1750 and the south half in 1763 was the first person to own the entire house. The house has usually been associated with the name of his son, John Corlis.

3. Notes on alterations and additions: At some time, probably in the later nineteenth century, the house was raised one story to provide shops at the ground floor. The interiors of the house have been extensively altered for later commercial and storage uses.

4. Sources of information: Antoinette Furrester Downing, Early Homes of Rhode Island, (Richmond, Virginia: Garrett and Masnie, 1937), p. 240; called the Corlis House.

John Hutchinson Gedy, The Civil and Architectural Development of Providence 1636-1950 (Providence, Rhode Island: The Book Shop, 1937), p. 71; called the John Corlis House.

B. Supplemental Material: The following quotation, about the great fire on South Main Street in 1801, is from the Providence Gazette, January 24, 1801--

"Fire began in the loft of the large brick store belonging to Mr John Corlis, on his upper wharf...the Store of Mr. Corlis was destroyed. In all, there were 37 buildings destroyed...including 16 Dwelling Houses, 10 Stores, and 11 outhouses. The Dwelling House of Mr Corlis was several times on fire but was saved by persevering exertion."

The following statement was prepared by the Smith-Gibbs Company, at one time owners and occupants of the George Corlis House--

"As early as 1860 the H. B. Smith Co. of Westfield, Mass. began the manufacture and erection of Gold's Patent Cast Iron Sectional Steam Boilers, for heating purposes. Their business soon grew to such an extent that in 1870 a local branch was established under the direction of Mr. H.J. Watson. In 1873 Mr. James M. Smith, son of Henry B. Smith, one of the founders of the business, supervised Mr. Watson in the management of the Providence Branch. He was later joined by E. W. Gibbs also from Westfield in the year 1890. Under their leadership the business grew and prospered until in 1914 a corporation known as the Smith-Gibbs Co. was formed buying all rights and stock of the local and continued the business along the same lines. Mr. Smith

died in 1925 being practically at the head of the business for fifty years. For the past twenty five years the office at #11 South Main Street and warehouse and shop #7 and #9 Leonard Street at the foot of College Street was well known to their friends....

"We make no use of the mansion property except for a small amount of storage space. Our Offices Pipe shop are located on the first floor and basement. It is interesting to note that this building antedates the beginning of the Revolutionary War, the first Baptist Meeting House and the Old Market Building."

PART II. ARCHITECTURAL INFORMATION

A. General Statement

1. Architectural character: This is a large, two-and-a-half story frame building with a gambrel roof, an early example of the central-hall type plan using four chimneys in the outside walls.
2. Condition of fabric: Poor.

B. Technical Description of Exterior

1. Overall dimensions: About 40' x 36', house raised one story above ground on later brick business building, two-and-a-half stories above the first floor brick building.
2. Foundations: Brick.
3. Wall construction: Heavy timber frame, plank walls, clapboards.
4. Chimneys: Four brick chimneys in outside walls. Only one still continues above the roof line.
5. Openings:
 - a. Doorways and doors: Only entrance to home now from rear adjoining warehouse. Later Greek Revival paneled wood door in simple frame with horizontal top light. Unused entrance on south side, simple wood frame with top light, later door. Location of original entrance not apparent.
 - b. Windows and shutters: Nine over nine light double hung windows, molded sills and heads. Second floor heads continuous with bed mold of cornice. No shutters, but shutter hardware in place.
6. Roof:
 - a. Shape, covering: Gambrel roof, overhangs about 1' at both ends. Asphalt shingles.
 - b. Dormers: Gabled dormers with eight over eight light double hung windows.

C. Technical Description of Interior

1. Floor plans: Central hall plan with six main rooms on each floor of upper parts. May have been a four-room plan originally. First floor and basement entirely remodeled many times as offices and warehouses. Central hall at second floor now accessible only by rear door from adjoining warehouse. Original access to second floor not apparent.

2. Stairways: Two stairways in central hall, one behind the other, straight run, appear to be in original locations, but are not original stairs. A few parts surviving on the front stair would seem to date from about 1810-20.

3. Flooring: Wood - mostly later flooring. Some early, wide boards.

4. Wall and ceiling finish: Plaster

5. Doors: Miscellaneous paneled wood doors including some raised panel doors with either two, four or six panels that appear to be original.

6. Trim: Simple molded wood trim. Mitered architraves on doors and windows, many apparently later. Exposed corner posts cased and with beaded edges. Baseboards and some ceiling cornices from several periods - some with large simple profiles appear to be original.

7. Hardware: Mostly inexpensive, later hardware. A few original wrought iron latches and strap hinges on inside doors.

8. Lighting: Electric

9. Heating: All original fireplaces closed up and mantels removed. Parts of various later central heating systems survive.

D. Site
